

# LAB MANUAL

## Geography 101L

Physical Geography Laboratory: Earth's Surface Landscapes

Department of Geography & GIS  
Antelope Valley College  
Lancaster, California  
USA

June 17, 2013

This manual was produced by members of the faculty of Antelope Valley College's Department of Geography & GIS: Michael W. Pesses, Susan Welsh, and Steven Adams.

The materials within this lab manual are provided freely to the students of Antelope Valley College. Educators finding this lab manual on the Internet should feel free to use the materials provided, although the authors do not assume any responsibility. The material is provided "as is." Any questions regarding the lab manual may be directed to mpesses@avc.edu.

Thank you to the US Geologic Survey and the National Oceanic and Atmospheric Administration for continued public access to geographic data and information and to the Antelope Valley College Foundation for financial support of our program.
